

The CEI Group, Inc. (CEI), a fleet driver management company, announced today the promotion of three veteran information technology team members -- **James Pritz**, **Steve Colonnello** and **Bob Marriott** -- to director.

“Each of these three gentlemen has demonstrated leadership over the years in supporting CEI’s technology prowess,” said **Wayne Smolda**, CEI’s president and chief executive officer. “Collectively, their new roles will be to ensure that our information infrastructure and applications continue to keep CEI fleet customers at the leading edge of safety and accident management efficiency and savings.”

Mr. Pritz takes on the title of director of application development. He joined CEI in 1998, and was instrumental in the creation of the company’s real-time ClaimsLink™ accident management application. Mr. Pritz holds a bachelor’s degree in computer science from Ursinus College.

Mr. Colonnello was named director of risk and safety applications, with responsibility for the company’s DriverCare™ offerings. Now in his 11th year with CEI, Mr. Colonnello is a graduate of Shippensburg University with a bachelor’s degree in information management systems.

As director of technical infrastructure and systems, Mr. Marriott is responsible for CEI’s information networks, data center operations, hardware and technical systems, including communications, security, and reliable system availability. Mr. Marriott is a 30-year IT professional with 15 years of experience at CEI and holds a bachelor’s degree in letters, arts and sciences from Penn State University.
