Global Fleet Driver Management™ Workshop | 2016

Topic: The Keys to Implementing a Global Fleet Safety Program

Companies with multi-national fleets know that a global fleet safety program is the best assurance of lower accident costs, less risk of negligent entrustment liability, and fewer high-risk drivers. They also know the many obstacles in implementing a program. This year's Global Fleet Driver Management Workshop brings together top safety experts to explain how any company can successfully implement a global fleet safety program.
